

LIGHT

COMPANION VOLUME TO GOD IS ALL

By Lillian DeWaters

Copyright 1950

LIGHT

Spirit, God, is one infinite, indivisible, pure and perfect Selfhood; and there can be no personal self, being, mind or body. Spirit is our Life, our Life is Spirit. Spirit is our Mind or Consciousness. Mind or Consciousness is our Spirit. Spirit is our Body, our Body is Spirit.

Spirit is our only Self, I or ME-boundless, immeasurable, timeless, spaceless, incorporeal. There is no mortal, human or material being, mind, self or body. Spirit is our only Self, I or ME-boundless, immeasurable, timeless, spaceless, incorporeal. There is no mortal, human or material being, mind, self or body. There is but "ME"-I AM the One who is real and present.

When this new revelation is seen and accepted, there will be no more sickness, sorrow, disease, pain or death. As the belief and teaching that we are mortals, humans or mankind is done away with, there will be no misbelief, misconception, erring teaching or wrong thinking.

Seeing that the One Self, "I" or "ME" reigns alone, and that there can be no other identity-whether as mind, consciousness or body each one should reject and discard the beliefs and teaching which identify oneself as man, humanity or mankind; for within this very identification lies the subjection to suffering, disease and limitation. Our deliverance, therefore, is not from suffering, worry, fear or old age, but that one ceases to believe or accept that he is a mortal or human being, and that his body is material or physical.

The healing of disease will never be the termination of disease, nor can the healing of suffering bring an end to suffering; nor will the denial of matter do more than continue to keep one in the belief that he is a mortal, and that his body is material, thus prolonging his association with sickness, lack and suffering.

This new revelation is bound to come universally. The time is here, not only for us to know the unadulterated Truth, but for us to speak it out loud. Spirit is our only Self, Spirit is our only Body, Spirit is our only World-complete, perfect, present. Spirit is the only "I" or "Me".

Because of this deeply profound revelation-that Spirit alone is all, and that nothing else is present here and now but Spirit, God, the ONE-there must come an end to the belief and teaching that we are mortals, humans, humanhood or humanity.

Perceiving that one's Self or I Am exists alone, one should forthwith renounce and relinquish all belief and teaching which keep him subject to mortality and suffering by identifying him with another self, mind and body *not the One*.

In the Light of our pure, boundless, unrestricted love for Truth and Reality, and in the certainty of our pure vision and perfect knowledge that there is one Self, one Consciousness, and one world only, *we know and we declare that there was never a deflection of being, 'nor a creation of mortals. We know we are not a mortal! We know we are not a human mind! We know we are not a material body! We know we do not live in a human existence!*

Truth exists alone. The one I Am, the one Selfhood, is Principle, Power, Life and Being. Let no one continue to believe that he can find out what Truth is by reversing error or by denying material senses. Knowing by Spirit within, that Truth *IS*, one simultaneously knows there are no material senses. *Identified as the One Mind only, one has no consciousness of, or belief in,*

error.

The fact should be evident, that only one's belief that he is separate from or other than the one Self, Being and Mind, causes him to believe in mortal beings, material senses and error; and thus allows him to be subject to problems, vicissitudes, limitation and sorrow.

As soon as one sees and accepts the revelation that God, Spirit is the whole of him, and the whole of all, and that he is not separated from God, nor from Spirit, he will then know naught of material testimony, mortal belief or human existence.

His only remedy for sin, sickness, suffering and limitation will be his own perfect knowledge and awareness that Spirit is his own eternal Selfhood, present here and now as the totality of his life, being, world and existence.

No error or evil made a mortal man. No human concept ever existed. Sin did not create a sinner, nor was sin self-created. Self-created matter, self- destructive evil or self-constituted falsity never existed or seemed to exist; nor will error or evil be self-destroyed. All such theories and beliefs have as their only basis the fabulous religious doctrine of original sin and separation.

As long as one infinite God remains one infinite Selfhood, Mind and Universe, there is no material creation, no mortal being, no human mind and no corporeal body.

Reader, fear not to examine carefully what you read, and what teaching you accept; have this thought in mind: *does it identify you with perfection, purity, wholeness, harmony, peace, serenity and happiness* right here and now—or—does it relate you to problems, labor, struggle, suffering and limitation by identifying you as humanity, humanhood or mankind, with a mortal, human body, living in a human existence?

Fear not to question the books you read—even the Bible. Why not? Let a book stand or fall upon its own statements, whether as true or fabulous. *Whatever statement is based upon Spirit, God, as our only Life, Mind, Being, Principle, Power, Consciousness, Universe and Manifestation-unconditioned, pure, perfect, invariable and eternal-is Truth.* Whatever statement identifies us with another self, mind, world and body, which are mortal, material or human-is fabulous. There cannot be the existence of an infinite perfect ONE, and besides this, an existence of another finite, sinful second.

The teachings which tend to prolong our identification with problems, lack, warfare, sickness, confusion and misunderstanding, by placing before us the belief that we are not living in the spiritual world now, that our body is not spiritual now, and that our mind is not filled with a constant stream of light and illumination—these teachings must be dropped and forgotten. There is a supreme Truth and Reality which is the Self, Being and Awareness of the whole world—*It is Spirit.* Spirit is the real and true, existing alone.

Spirit, the one Selfhood or I Am, remains absolute, as our only Self, Being, Body and World—present right here and now. In this absolute truth and perfect knowledge that Spirit is ALL—without beginning, change or end—there is no place for contradiction, contradistinction, opposition or a suppositious second. All the while, *God Is All* remaining One and Absolute.

Surrendering belief in duality, personality and mortality, as well as the belief that our body is human and material, we find that we are not different or other than the One who is real, perfect and present. There can be neither self, mind, form or world apart from that which is the eternal, present Self.

Let everyone cast aside as useless and unavailing the teaching of separation, development, translation or reinstatement, if he should be free from sickness, grief, lack and tribulation. Emergence from matter into Spirit is impossible. Matter has never existed. *None can bridge a distance between us and God—no distance exists.* None can make a journey to God—God is within our own heart. No future time or other place can ever be—God is infinite, timeless, spaceless, everpresent.

Question your Self. Take for instance these questions: Is there one mind only? Besides the mind of God is there a human or a mortal mind? Is God the only Power or is there also another power called evil, error or mortal mind? Face questions squarely, and answer them with a yes or no. *Until you surrender your belief in two minds, two bodies and two worlds, you cannot experience the joy and glory of Self—Light and Self—Awareness, for none but the One infinite, divine Mind has knowledge of Itself.* There is not anything but the Infinite, indivisible One. The one Life is our life, the one Mind is our mind, the one Existence is our existence. *It is impossible for anyone or anything to exist except as the One who exists alone.*

Everything in and of this one All is the one All Itself. No one or thing has being, mind or existence of himself, herself, itself. Not only is our life, mind and being *God*, but the whole of us is God, the Self, the I Am. In no other way could it be truly said that *God is All*.

Know your Self, and you will be Self-luminous. *See* your Self, and you will see God. Surrender belief in another self, another mind, another body and world beside the immutable, immaculate, present One, and Self-revelation and illumination is immediate and direct. You are then free in spirit, in mind, in body. If you accept the mistaken belief that mind and body are human or material, you are unaware of the Truth that mind and body have always been Spirit. Accepting *Spirit* as the only presence here and now, struggle, labor and warfare are abolished.

No fear is attached to the turning to and acceptance of this enlightened standpoint. Every interpretation, doctrine or practice, which would connect or associate us with degenerate beings—humanity, humanhood or mortals—will be swallowed up in the luminous light and perfect knowledge that the *Infinite I AM remains unseparated and alone, and I AM this I AM*.

If you watch your thinking with the idea to correct, purify or control it, you are then and there identifying yourself with a mind that *does not exist*. There is no mind beside the spiritual or divine Mind, and there is no self but the one infinite Selfhood. If you would know the Truth, and experience the real Self here and now, you must stop believing in or teaching the practice of correction, development or translation of human minds or mortal beings. Such labor and effort is spent in vain.

To be aware of the Truth one must *be* the Truth, and to know what is real and true, one must *know* as the one Consciousness. Accept the one Mind only—aware that there is no other—then your thinking will delight and inspire you.

Detach yourself from systems and methods that *prevent you* from knowing that there is but the one Self, mind and thinking. Discard all practices which would identify you as a mortal or human being, with mind, thought and will of your own; and which keep you in bondage to the fabulous belief that you are separated from Perfection. The Truth is that one Self, one Mind, one Consciousness or Awareness exists alone; we ARE this One.

Truth cannot be revealed unless you detach yourself from beliefs and teachings pertaining to you as other than Spirit. Once you face God, and turn your heart to God alone-shutting out all thought of another world of people and things-you are in immediate Light, which *reveals* to you whatever it is you should know. Since the one Being is your life and self, and since you can be no other, *there must be therefore the renunciation of your belief in any other*

Infinite God is our own infinite, perfect Life, Mind and Being. This Selfhood excludes any other self or existence. Omniscience excludes the presence of any other mind. Omnipotence excludes the presence of any other power. The infinite, perfect ONE knows Itself to be the infinite All-in-All.

The answer to the world's problems is not to be found in the healing of diseases or in the overcoming of wars. The deep significance of this hour is that *we turn our hearts* from all else to God direct for light, vision, revelation.

No treatment or demonstration will prove sufficient for this crucial hour. *Light* only can reveal the way. Old beliefs and teaching shall here and now *utterly pass away*. Behold, "I" make all things NEW!

This new Light goes far beneath the surface. It reaches the very depths of the heart. Here it discovers the deeply rooted belief and teaching that we are mortals or human beings with material bodies, living in a human existence. *None of this is true. All of it must be demolished, abolished and pass away.*

The basic belief and basic teaching of all religions is that we are now separate from God; that God is Spirit, but we are mortals of humanity. Light reveals that *we are not humans or mortals*; that there is no mortal to be regenerated, no body in need of healing, and no world that can be destroyed. Light reveals that *we were never separated from God!*

Spirit could not be present in a mortal self, a human mind, a material body, world or existence. Spirit, the one I AM, the "I" or Identity for all, *is here now*, always the same-invariable, unchangeable, absolute. To Spirit, all is Itself, all is Spirit.

The new Light of today reveals that we are not a race of humanity, we are not human minds or human bodies. Every time one claims that he must put off or put on another mind, every time he thinks he is a mortal, and that this body is human or material, and this world is an illusion, he is claiming an existence which does not exist. *Apart from Spirit, God, there is no existence.* Beside "ME" there is no other, there was no other, there will be no other.

Nothing in or of God is human, mortal, material, unreal or illusory. God is the entire, the totality. *To be at all, we must be this ONE.* God is whole-the *Whole*. God is the whole of Life, Being, World and Existence. In this Whole there is no separation; no suffering; no warfare, no destruction; no death. In this Whole there is light, vision, revelation-constant and unending.

They who turn their hearts to God, fully and completely—*surrendering and abolishing* all teachings of today which hold the world in the belief that we are separate from or other than Spirit, God, the One—will know of God that Spirit and spiritual Existence alone is present. They will live in their own pure and perfect Awareness or Consciousness that Spirit is all and that *we can be nothing but Spirit*. The end of the world means the bringing to an end the diabolical belief that we are mortals, humanity or mankind. It shall be that we *will see this very Self, this very Body, and this very World* as the Real and True—verily, the kingdom of Heaven Itself. Here, there is no sickness, no war, no sorrow, no death; for the former belief of sin and separation shall have been obliterated by the glorious, luminous Light and Revelation that the *I AM* remains Total and Alone; that "I" am the only One—there is none but "ME".
